

Workshop on Profiling Research Publications for Quality Research

Organised by

University Library
Cochin University of Science and Technology
Kochi-682 022

On
Tuesday, 3rd January 2012

Venue
Electronics Auditorium, CUSAT

About the Workshop

Academics and Scientists engage in constant and continuous research activities help improve quality of life. Thus, *originality* in research is a requirement to fulfill the agenda given by society to academics and scientists.

Publication is an integral component in the research process. Publication reflects the character of innovative research and it is used as a yardstick to measure research contribution. Otherwise, we can state that research is assessed mainly through publication. Thus, research publications are practically used in tenures, promotion, funding and other related activities. Publications need to reflect the research carried out by a researcher completely. However, in reality many researchers particularly the young researchers have difficulties in generating good research publications. There are many questions that remain to be answered.

How to produce qualitative research publication?

How to reflect the research carried out through the publication?

What is impact research?

What is the best way to disseminate research?

How to structure the research publication?

How to assess the reviewed publication?

What is indexed research?

How to integrate the research in the process of global review and indexing?

How to increase the research publication quality and record high research productivity?

The above list is a small fraction of questions in the research publication process. Young researchers need to be motivated to generate high quality research. They need to be focused on global reviewed and indexed research.

To enable the researchers to understand the research publication process and to participate in the global research network, a training program will be conducted. This program, a kind of a workshop will discuss the ways to optimize the research publication activities. The workshop will discuss the structure of research publications, review and indexing process, methods of generating good publications, global databases, research networks and other required research publication activities.

About CUSAT

Cochin University of Science & Technology occupies a unique place on the academic roadmap of Asia as a premier Science & Technology University. CUSAT offers programmes across a spectrum of disciplines in frontier areas ranging from engineering, science, technology, humanities, law and management. The pursuit of excellence through these programmes has given CUSAT a national and international standing. The University has academic and exchange links with reputed institutions worldwide.

About University Library

Established in 1977 University Library acts as a Central agency for meeting the information requirements of the academic community of the CUSAT. The functions of the University Library include collection, organization and dissemination of information.

Workshop Convener

Mrs. Baby Valsala C.P

University Librarian in-charge

University Library

Cochin University of Science and Technology

South Kalamassery, Kochi-682 022, Kerala

Ph : 0484 -2862130 , 2575715 , Mob:9947275886

Email: ul@cusat.ac.in

Resource Person

Dr.P. Pit Pichappan

Professor & Visiting Professor

Ningbo University of Technology, China

University of Zululand, South Africa

University of Macau, Macau

Teaching and research in the areas such as databases, information security, information retrieval etc

Target Audience

The researchers, academicians, professionals and scientists in academic and R&D labs are the target audience.

Registration Fees

Students/Faculty/Professionals: Rs. 200 /-

Sponsored Candidates : Rs. 500/-

Draw the Demand Draft in favour of "University Librarian" payable at "THRIKKAKARA" STATE BANK OF TRAVANCORE, CUSAT BRANCH. Please enter your details in reverse page of the DD.

Accommodation

Booking can be made on behalf of participants on additional payment and accommodation will be provided within the CUSAT campus. Those interested may please contact the convener in advance.

Registration Form
